Thank you for the response. Sorry to hear you can't make it for the July meeting due to a prior scheduling commitment. We understand you have a very busy schedule and your time, as well as ours, is very valuable.

We would like to extend this invitation of meeting with the community to a different date. We would like to invite you to our August 17th, 2015 CommUnity meeting. If that date doesn't work for you, could you possibly share a few dates that would work with your schedule to come to St. Louis?

As always, we thank you for attention and dedication as we work towards providing a safe and healthy environment for our community.

Dear Karen and Dawn,

Although it did not look like it would happen when we offered to meet in St. Louis, I was glad we met face-to-face while we were all in D.C. recently. As we mentioned, the in-person discussion was important as a follow up to our telephone call with Mathy

Stanislaus. I think we have covered some of the most important issues in our previous discussions. Regarding the invitation to attend your meeting, there are scheduling conflicts that prevent me from traveling to St. Louis. I remain committed to the Superfund project that will see to the continued protection of the community near the West Lake Landfill.
